PERFORMANCE SERIES STEALTH LEG PRESS

DESCRIPTION

This leg strength solution allows users to hang a leg press onto a rack or cage. The features include a large diamond plate foot platform; two UHMW-covered rods that can be adjusted to provide several starting positions and to safely control the motion of the device; and a single, extra-long Olympic-sized and chrome plated weight peg. Two web straps loop around the cage uprights for an additional measure of safety. The Stealth Leg Press is available in Carbide Black only.

Requirements: utility bench set to the upright position, and a rack or cage with two j-hooks.

Also available as the 7016
Pro Series Stealth Leg Press
