

LEGEND FITNESS®

BEARING BAR

FINALLY, bars worthy of the **LEGEND** name.

Is a reasonably priced, American made bar with 10 bearings possible? In the new Legend Bearing Bar It is. All the spin and quality you need without a price that breaks your budget.

Manufactured to Legend specifications, this bar is 100% made in the USA from turned, ground and polished steel. Featuring Olympic marks only with light knurling (but no center knurling) and bright zinc plating, this bar provides the right amount of grip and hand placement information for explosive lifts.

The ten needle bearings are packed with quality lubrication, but once that loosens up a bit, they will spin and spin and spin! Sleeves are zinc plated, with 16.25-inch load length and a beveled 1.25-inch thick collar. Also, if ever the bearings should need servicing, this bar breaks down in the field without the need for a vice or special tools, so you can extend the service life of this bar until it becomes an heirloom.

2 YEAR WARRANTY against manufacturer defects or breakage. This warranty does not cover rust, bending due to misuse, or any defect caused from use outside the stated functional capacity of the bar. Warranty against bending does not cover any bar which has been damaged due to negligent or faulty use, alteration, maintenance, storage or handling by the user. Negligent or faulty use includes abusive dropping of the bar (i.e., dropping the bar on a box, bench, spotter arms or hooks in a power rack, excessive dropping with insufficient or damaged bumper plates, or excessive dropping with iron plates, and similar usage). Any specific issues or product warranty claims will be reviewed on a case-by-case basis.

PRODUCT SPECIFICATIONS

- 5 precision needle bearings per sleeve, ten total
- 10 precision needle bearings per bar
- Built to IWF specification standards
- 100% made in the USA
- 20kg 28mm diameter bar
- Minimum tensile strength: 190K
- Minimum yield strength: 175K
- Turn, ground and polished steel
- No center knurl
- Light knurling texture
- Olympic marks only
- Bright zinc plated finish
- Easily disassembled for service
- Medium whip
