

**LEGEND  
FITNESS™**

the **MODULAR**  
cage system

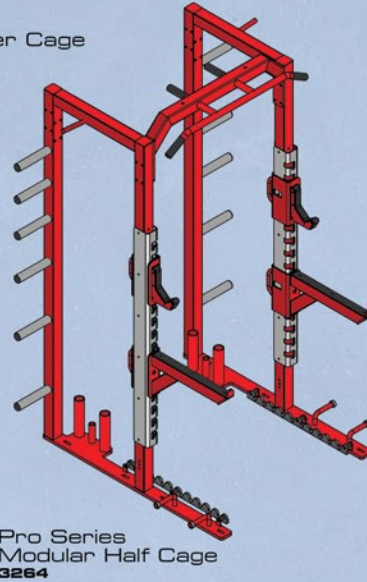

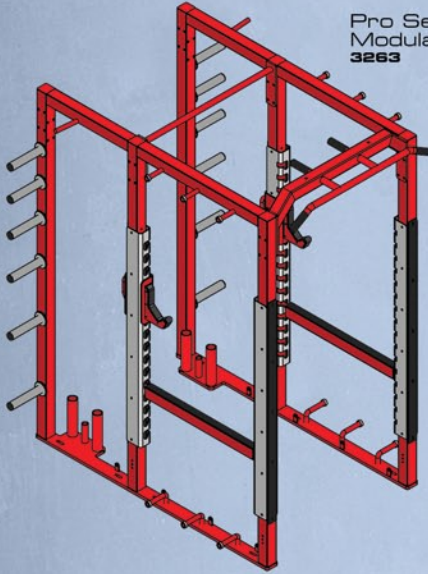

Pro Series Modular Half Cages  
with Fusion 1 Modules

**A customizable, integrated system of cages, connectors,  
and inserts that can expand and adapt to your needs.**

Why modular cages? Because the connecting crossmembers provide additional **pull-up areas/suspension training stations**, as well as **shared rigidity** above and beyond what single cages can provide. The integrated **Fusion Modules** give you even more versatility within a given footprint.

## Choose Cages
