

LEGEND FITNESS®

PREACHER CURL

(Part 3114)

- Thick, durable pads.
- Chrome plated adjustment surfaces.
- Fully welded frame.

Design from function is what the Preacher Curl is all about. Look at those guns in the mirror! You trained hard. With some inspiration, perspiration, and dedication, you got the results you wanted — and great equipment like this didn't hurt either! The Preacher Curl has a 55-degree angle pad that promotes enormous isolation of the biceps. You can train to failure since safety catches are only inches away.

39" L
30" W
