LAT PULLDOWN

(Part 905)

- Knee rollers are fully upholstered and adjust to user height.
- Frame is fully welded for the maximum in rigidity, strength and durability.
- ABS wearguards up high protect finish from bar dings.
- Steel stack shrouds.
- Aviation-grade cabling.

DESCRIPTION

While we didn't invent the Lat Pulldown, we've been working on trying to perfect it. This pin select version is pretty darn close! The dual thigh roller pads adjust easily for locking in proper stability without sacrificing comfort. The included chrome-plated revolving lat bar helps reduce wrist strain. Heavy duty steel, superior components, and top-notch craftsmanship means that all you need to do to get ahead is go right back to the basics.

WEIGHT STACK INFO

The Lat Pulldown comes standard with a 200 pound weight stack in 10 pound increments. Upgrade to 250 or 300 pounds (also in 10-pound increments) if that's not enough weight.

5.5" L
48" W
90" H

460 lbs.
