Designing a training facility is not easy, but it can be. Start with your own dimensions and add all of the Legend Fitness equipment your users desire. Design a functional space with minimal effort, and then save it to share.

FLOORING & TURF

Robust flooring is one of the most important parts of a gym. We have excellent partnerships with leaders in athletic flooring, plus installation experience. Whether you need rolled rubber, rubber tiles, or turf, we can meet your flooring needs.

CARDIO EQUIPMENT

Legend Fitness is a certified retailer of several popular brands of cardio equipment. From treadmills and elliptical machines to upright and recumbent cycles, and more, we can work with you to fill your space with top-of-the-line cardio equipment.

WEIGHTS & BARS

It should come as no surprise that we have relationships with some of the best weight manufacturers. When it comes to specialty bars, free weights, kettlebells, plates, bumpers and more, we can help you make sure everything is ready to go.

FITNESS ACCESSORIES

Legend Fitness also has the hookup when it comes to gym accessories. We can get workout bands, chains, belts, medicine balls, bosu balls, foam rollers... pretty much anything you can think of to put the finishing touch on your gym.

"This company truly cares about their customer relationships and the customer's buying experience as much as they do about their world-class fitness equipment and quality. My rep consulted me on all aspects of my purchase, from advising on equipment purchases, assisting with those purchases even when not manufactured by Legend, to helping with acquisition of non-equipment purchases such as flooring, and ensuring I ultimately ended up with an exceptional home gym experience overall, including consultation for installing the flooring. They were highly responsive towards meeting all of my home gym needs every time I had a need or question. If you're in the market for fitness equipment, Legend should be at the top of your list."
